

Mahmoud Rabie - Front-End Developer

Phone : 01557470384 | Email : mahmoud.rabie2512@gmail.com

Location: Cairo, Nasr City | GitHub: <https://github.com/mahmou8999>

Summary

Front-end developer passionate about creating interactive, responsive, and visually appealing web applications using modern technologies like React and Bootstrap.

Capable of reading and modifying existing code.

Always eager to learn and adopt new technologies to enhance my development skills.

Projects

1. Tech Store

A complete e-commerce website for selling mobile phones from various brands like Samsung, Apple, Realme, and more.

The homepage features a banner, auto-playing slider, and a footer. The Products page displays 6 cards, each representing a phone brand.

Clicking on any card filters and displays all products from that specific brand (e.g., Samsung).

This was the first project I built from scratch.

2. Bakery Website

A fully responsive website for a local bakery built using HTML, CSS, Bootstrap, and JavaScript.

It includes a hero section, product categories, individual product pages, a contact form, and a clean, user-friendly layout — providing a smooth browsing experience for customers.

Technical Skills

HTML, CSS, JavaScript, Bootstrap, React.js, Git, GitHub, APIs, Responsive Design, Tailwind CSS

Education

Faculty of Law, Assiut University 2022 – 2026

Courses & Certifications

- Programming Fundamentals with C++ – MEC Academy (2024)

Topics: Programming Basics, Object-Oriented Programming (OOP), Data Structures

- Frontend Web Development Track – MEC Academy (2025)

Topics: HTML, CSS, Bootstrap, JavaScript, React, Git & GitHub

Additional Learning

Learned Tailwind CSS independently through YouTube tutorials and the official Tailwind documentation.
