Profile

Junior Front-End Developer with a strong foundation in modern web development and practical experience. I am skilled in building responsive and user-friendly interfaces using HTML, CSS, JavaScript, Bootstrap, Tailwind, and modern frameworks (React). I have built a professional portfolio showcasing real projects and clean, organized code. I am passionate about writing maintainable code, improving user experience and user interface (UI/ UX), and continuously learning new technologies to advance in front-end development.

Skills

HTML5 | CSS | JavaScript(ES6) | React | React Router | Redux | Bootstrap | Tailwind |
Git & GitHub | APIs | Responsive Design | Clean Code | Problem Solving | Web development

Interests

Front-End Development and building responsive, user-friendly web interfaces

Learning and experimenting with modern web technologies (React, Vite, JavaScript frameworks)

Back-End Development and database management (C#, .NET, MySQL)

Problem-solving, algorithms, and data structures

Developing personal projects and maintaining a professional portfolio

Keeping up-to-date with tech trends and participating in coding communities

Certificates

Intro to Software Development — • Learned the fundamentals of programming, including Object-Oriented Programming (OOP).• Gained knowledge in data structures and algorithms. • Applied basic programming concepts through practical exercises and small projects to strengthen problem-solving skills.

Course in Modern Front-End Development — Hands-on training in HTML, CSS, JavaScript, and modern frameworks (React, Vite). • Learned best practices for building responsive, userfriendly web interfaces. • Gained practical experience by developing small projects to strengthen coding and problem solving skills.

Back-End Development with .NET (In Progress) — I studied the basics of C#, including Object-Oriented Programming (OOP) and data structures. • I gained practical experience with databases using MySQL. • I am currently learning back-end development with the .NET, focusing on building server-side applications, handling data, and integrating front-end.

Education

Bachelor of Laws (LL.B.) – Expected Graduation: [2026],

Faculty of Law in Assiut

I am a law student with academic training in legal principles, legislation, and legal research. I have studied core subjects such as constitutional law, civil law, and criminal law, and developed strong analytical and critical thinking skills. I am able to understand and interpret legal texts and present ideas clearly and logically in both written and verbal form.

10/2022 – 06/2026

Assiut, Egypt
